

myCARD for Artists

your how-to guide!

With JustMy,
**you make a
difference . . .**
we make it
easier

#TEAMUP4LOCALS

TEAMUP4LOCALS

JustMy has created tools that will help local artists elevate their brands with one-link access to their streaming channels, videos, press, merchandise, and more. The best part is, they are offering it for free. JustMy knows that artists have been greatly impacted by COVID-19 and this is their way of giving back.

JustMy has helped nonprofits raise over a million dollars a year for the last four years through their services, now it's time to support the arts. JustMy viewers have spent over 93K minutes watching community related videos created by the #FunCrew of #JustMy. The #BeAmazing hashtag has been used on more than 123K posts promoting the positive things going on in communities across the U.S.

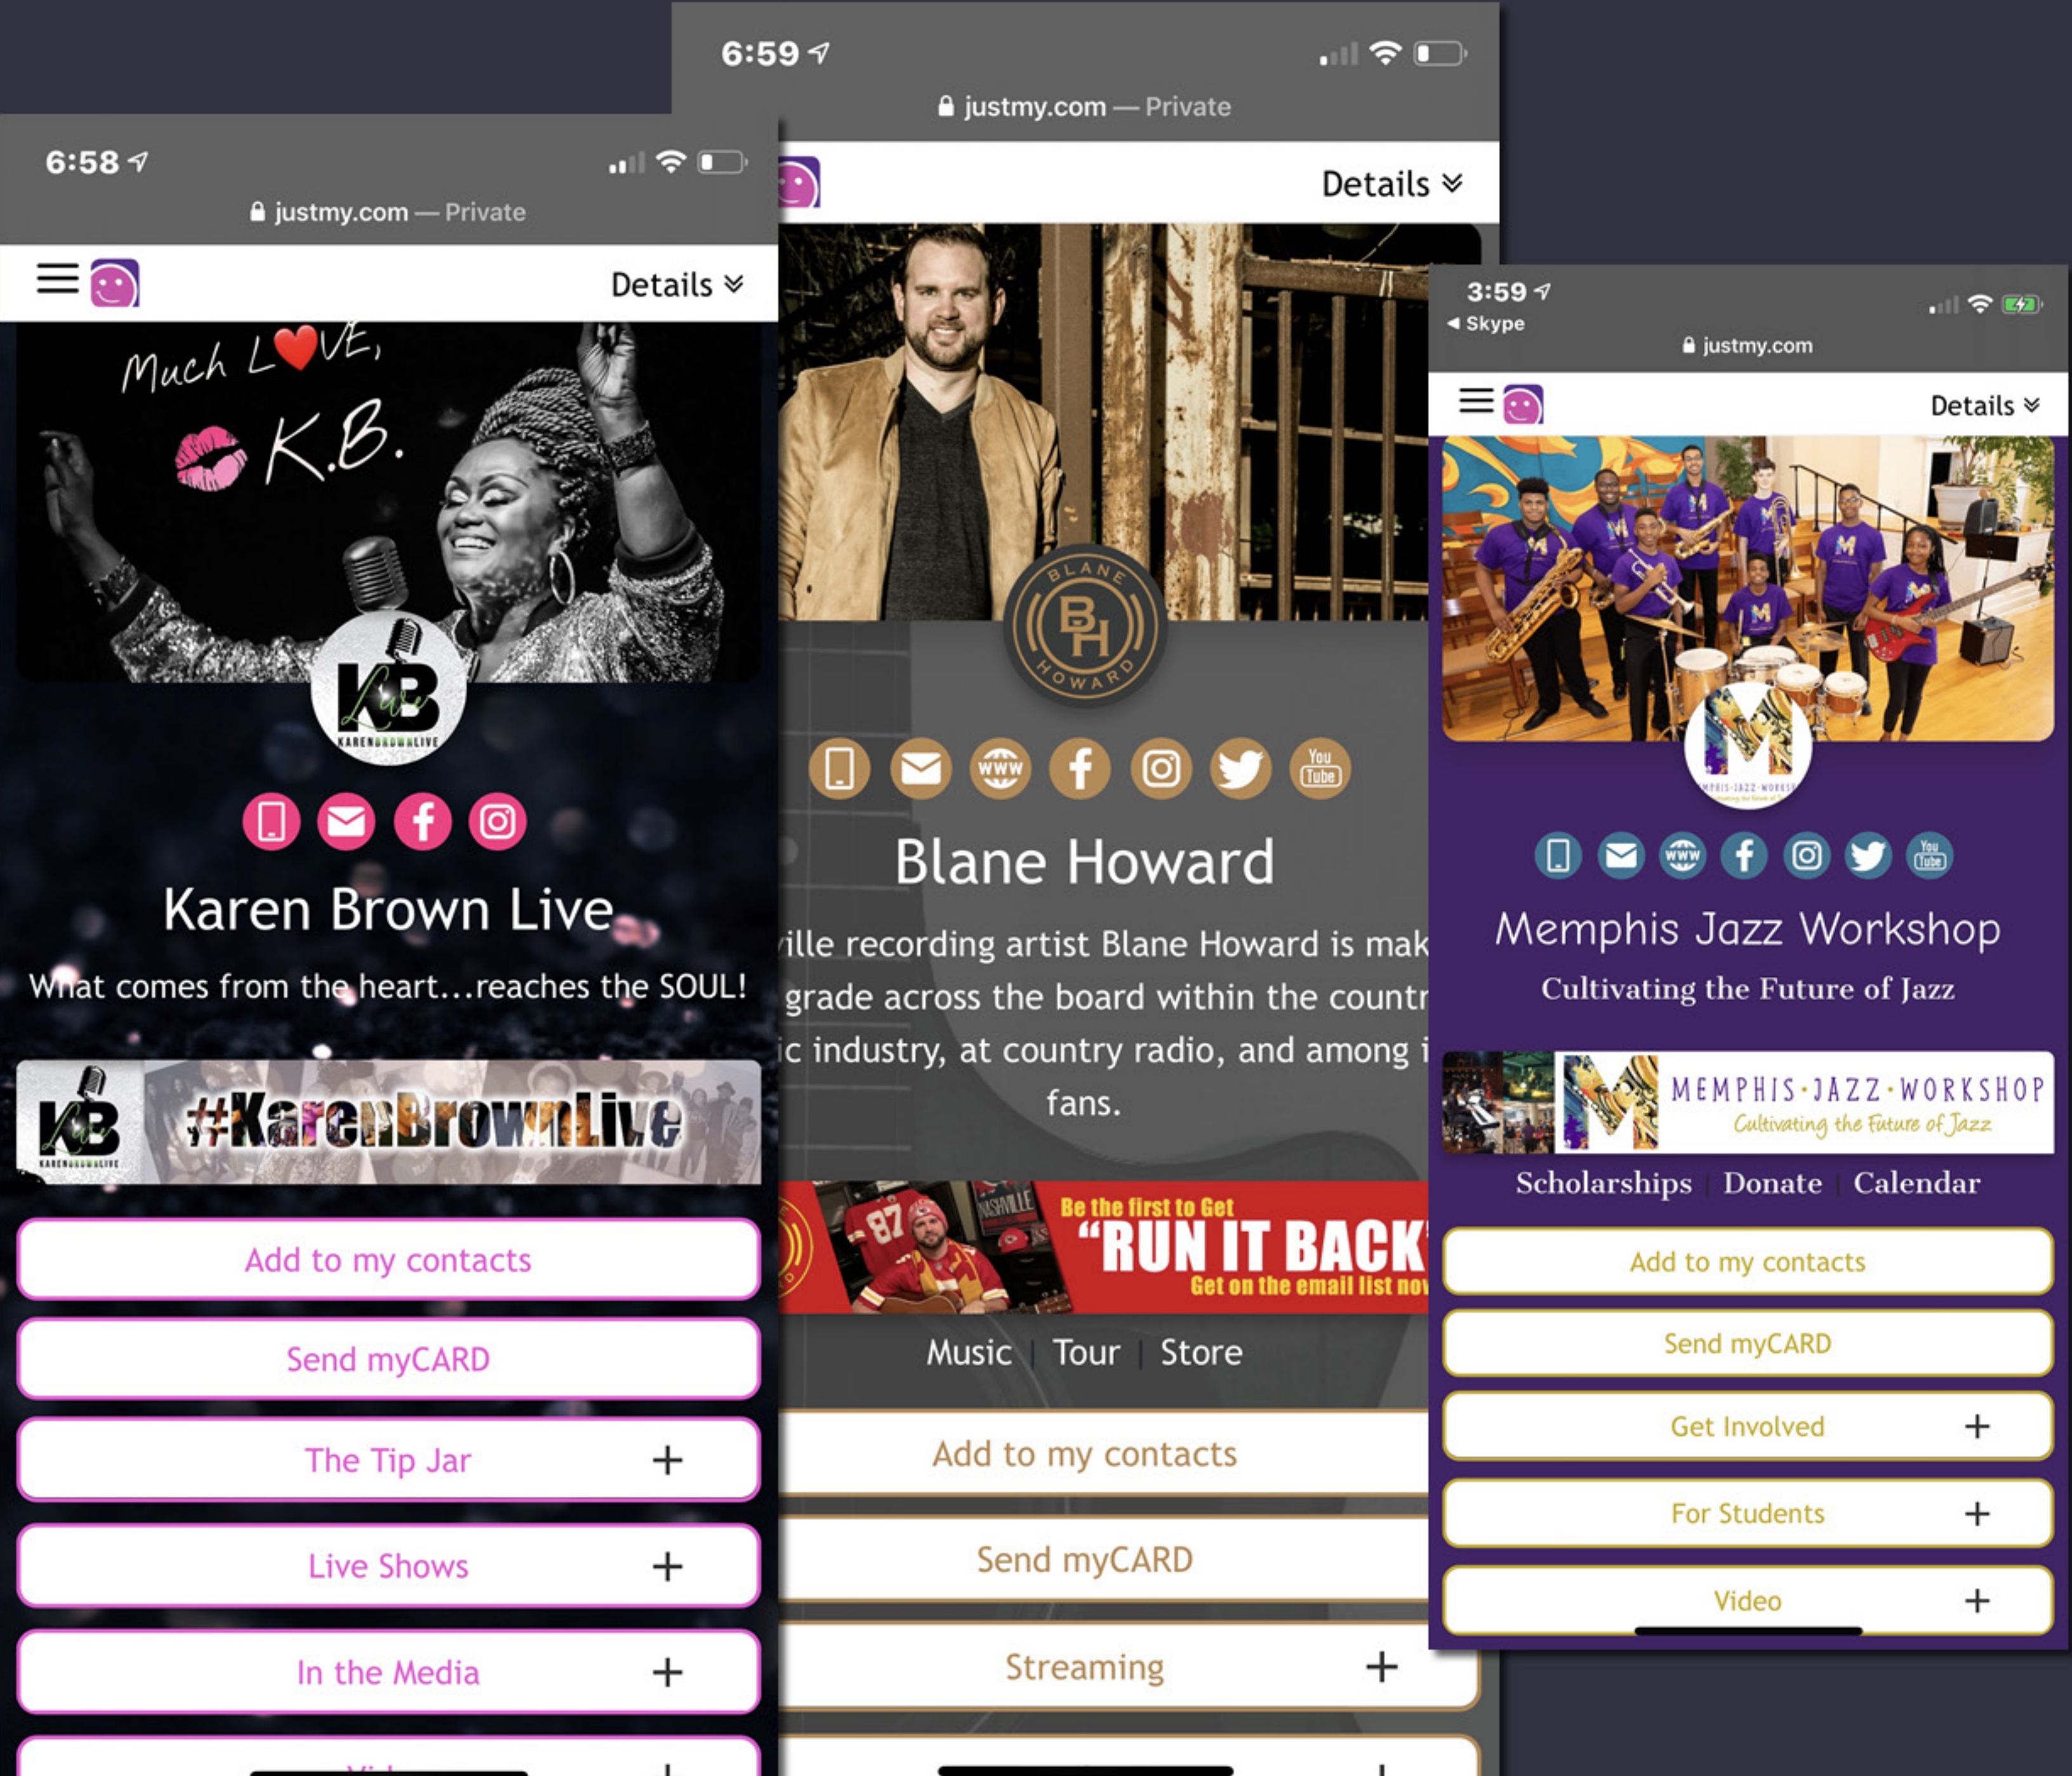

COVID-19 and other social issues have resulted in a negative impact on the arts community but the #FunCrew of #JustMy is here to help with myCARD and myPROFILE. These tools are just the start of an ever growing toolkit focused on helping locals.

JustMy has decided to take things a step further by helping artists create more content distribution channels. The services will be made available to all artists at no cost for the next year. Artists will have the power to fully customize the software to reflect their personal brands, it's easy to share, and is the digital business card that can do everything. With a single link, include favorite links, videos, and content. It doesn't stop there, JustMy knows streaming numbers are important for an artist which is why they have designed myCARD Artists Edition with default settings to help drive more traffic to the content that is most important.

Teaming up with #JustMy will do more than help artist's careers, it will help bring awareness to local community organizations and assist businesses and locals come together to shop, support, and share the #BeAmazing things that make communities great!

4. Your Custom Tabs

Your Custom Tabs help user see what you want them to see. Edit and rearrange them with ease. Then add content to your Custom Tabs from anywhere on the web!

To add a piece of content you will first need the link for it. After that click the green “Add” button next to the which content tab you want it to show up under and paste it in. After that, go checkout your myCARD and look at your content!

Turn off tabs you don't want to show and drag tabs to place in the order that you want them to show up

5. Interactive Ads

Market while you have their
attention . . .

Your banner ad is there just when you need it, when viewers are looking right at you. Create a banner and give it a link to that users where you want them if they click it.

You also get 3 hotlinks that will show under your banner add and these can be used to spotlight just about anything you want. Just give it a “Label” or text to be clicked that will link to a URL of your choice.

My Hotlinks:

Label1:	Link1:
<input type="text" value="4 Artists"/>	<input type="text" value="https://justmy.com/letsbeamazing-supportlocal"/>
Label2:	Link2:
<input type="text" value="4 NonProfits"/>	<input type="text" value="https://justmy.com/letsbeamazing-creatives"/>
Label3:	Link3:
<input type="text" value=""/>	<input type="text" value="https://justmy.com/letsbeamazing-partners"/>

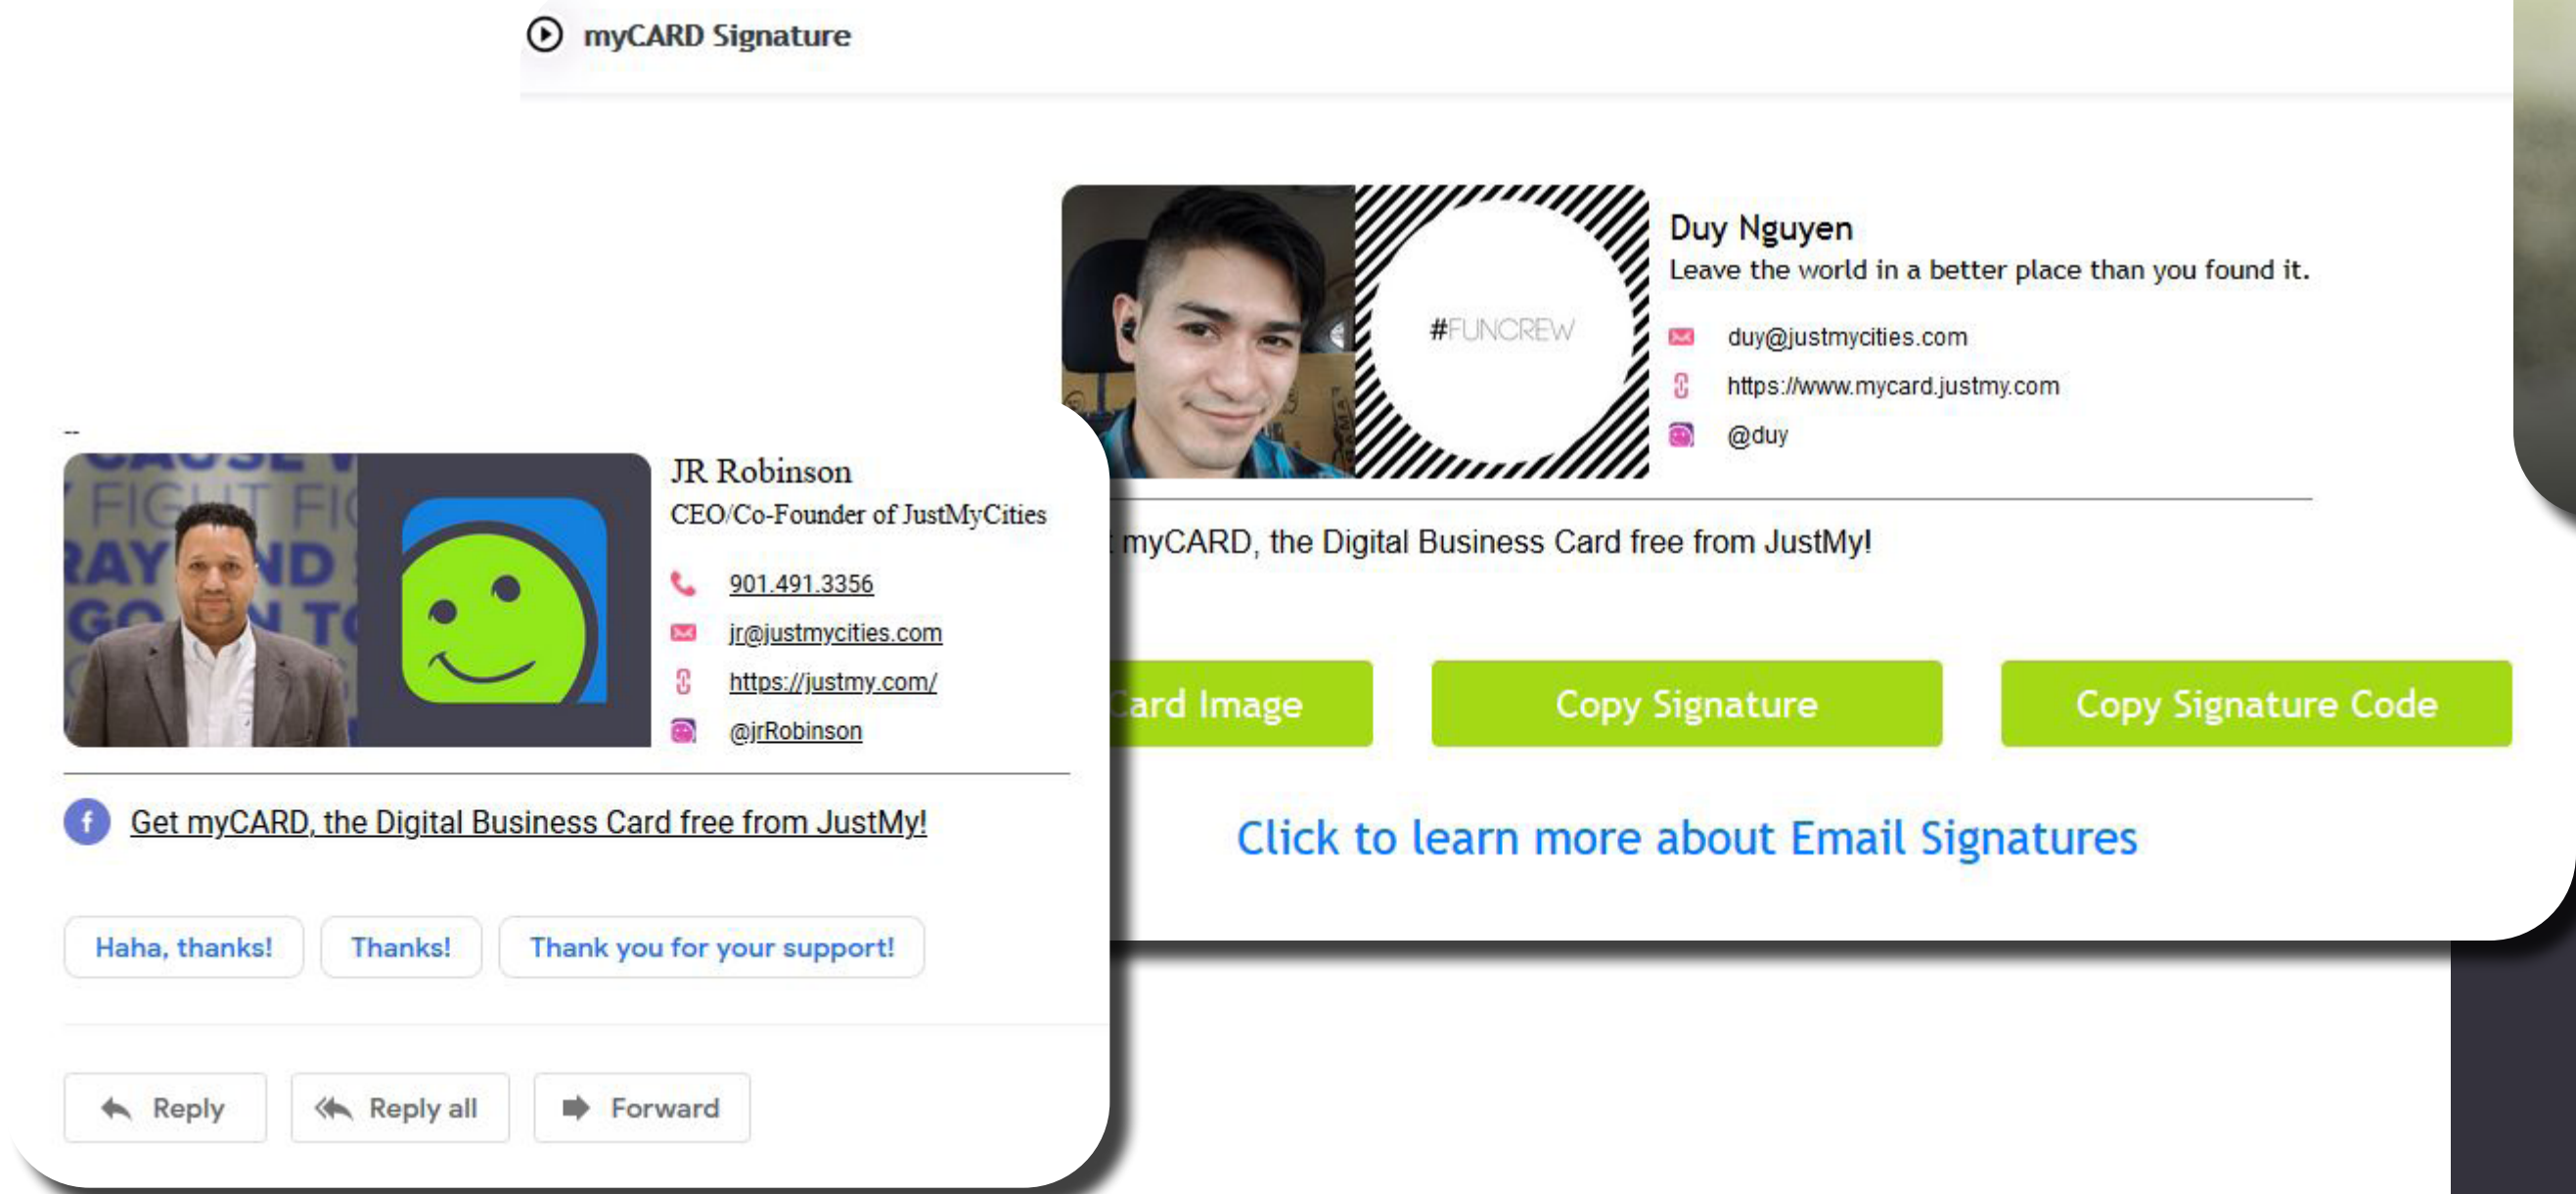

8. Email Signature

When you create your myCARD we also make you an email signature you can use.

“Generate Card Image” Button will refresh the signature image if you made any recent changes you don’t see. “Copy Signature” quickly copies the text version of the signature you can paste into a text message quickly.

“Copy Signature Code” is where the magic happens. This give you the code you can paste into your favorite email platform and it will include this card in the signature area of your emails. Your content is working for you in every exchange!
